Before the appointment, you are welcome to prepare your pet's favorite things such as toys, bedding, and foods. Items that bring comfort are welcomed. During the appointment, we will take a moment to review your goals and aftercare wishes. When ready, we will give your pet a sedative injection for relaxation and sleep. Once in a deep state of sleep, a second medicine will be given for euthanasia (humanely terminate life). You are invited to be with them during every part of the procedure. We will offer privacy before and after death, and send you home with a memorial paw print keepsake and our pet loss guide. Our goal is to keep things gentle and comfortable for everyone. You may ask questions and engage with our team as you see best. We know the day will be emotional and we are here to support you each step of the way.

We'd like to learn more about your pet and your relationship together. You are invited to share some of your favorite stories with us, or anything you'd like us to know.

Prepayment is possible. Please [click here](#) if you wish to pre-pay before you arrive.
